# 122 Questions To Get Your Child Talking About School

Ideas for parents, carers and other  
supporting adults

These questions will get you and your child talking about their day

## Introduction

'How was your day?' is a massive question that tends to get a tiny response... if you'd like more than 'fine' then this guide will help.

I've shared over 100 questions to help you have a deeper conversation with your child about their day.

Towards the back of this guide, you'll find questions to print - this is inspired by my daughter Ellie who LOVES to pick random questions to answer. We print them, fold them and pop them in a pot and pick one to both answer at random.

These questions will get you started, and in no time you'll have dozens of your own to add.

Good luck!

# Works Best When

It's important you find the way that works best for you and your child, but a few things that can really help include:

Encourage  
your child to  
ask you  
questions too

## - Get Specific -

Big general questions are hard to answer but super specific ones are easier, they also show that the other person has listened in the past. Tap into the detail and ask about specific lessons, friends or teachers. Ask follow-up questions to find out even more.

## - Reciprocate -

Make this a two-way thing and tell your child about your day too. Encourage them to ask questions by answering them thoughtfully.

## - Same Time, Same Place -

Make this a regular part of your day and get into the habit of talking to your child about their day at a similar time and place each day. They'll soon get used to talking about their day at this time and will use this moment to open up any harder conversations they need to have.
